This presentation is for information purposes only and is not intended as an offer to sell securities or the solicitation of an offer to buy securities. Such offers are made solely pursuant to formal offering and subscription documentation in an investment fund (“Fund”). An investor in the Fund will not be acquiring securities issued by any company described in this presentation, but rather an interest in the Fund which would invest in such companies. The Fund’s manager, Alumni Ventures, LLC (“AV”), will manage the Fund and make all investment decisions available to an investor in securities issued by a company, including terms of purchase, shareholder consents, and exit. This presentation is not personalized investment advice to any investor and does not constitute a recommendation with respect to any investment. Please seek professional advice to evaluate specific securities. This presentation contains forward-looking statements including, but not limited to statements regarding a company’s future financial performance, its plans and expectations for fundraising, customer and earnings growth and the future growth of the relevant market. All statements contained in this presentation other than statements of historical fact are forward-looking statements. Forward- looking statements are not guarantees of future performance and are subject to material risks and uncertainties. Actual events or results may differ materially from those discussed in the forward-looking statements. These forward-looking statements reflect our view only as of the date of this presentation. Except as required by law, AV undertakes no obligation to update any forward-looking statements. While the information herein is collected and compiled with care, neither AV nor any of its affiliated companies represents, warrants or guarantees the accuracy or the completeness of the information. To the maximum extent permitted by law, this presentation is provided to you conditioned on your agreement that you will not rely on it for any investment, business, or financial purpose and that AV and its affiliates shall not be liable you for any reason arising from any such reliance, or otherwise by virtue of the contents of this presentation, including any errors of inaccuracies herein.

The manager of the AV Funds is Alumni Ventures, LLC (AV), a venture capital firm. AV and the funds are not affiliated with or endorsed by any school. The funds are long-term investments that involve a substantial risk of loss, including the loss of all capital invested. Relevant risks are discussed in the Private Placement Memorandum and formal offering documents, which should be carefully reviewed prior to investing. Past performance is not indicative of future results. Diversification cannot ensure a profit or protect against loss in a declining market. It is a strategy used to help mitigate risk.

All private placements of securities and other broker-dealer activities are currently offered through a partnership with Independent Brokerage Solutions LLC MEMBER: [FINRA](#) / [SIPC](#) (“IndieBrokers”), which is located at 485 Madison Avenue 15th Floor New York, NY 10022. ### Access

"It's been great investing via Alumni Ventures. I loved their speed and love their solutions for international investors. Their dashboard makes data very transparent. I can find out exactly what startups are part of the various funds that I invested in and how each startup is doing."

**Karim Tadjin**  
Investor

### Strategy

"Despite my association with AV for only about a year, I have found them deliberate and diligent in evaluating portfolio companies they recommend. The portfolio managers are capable subject experts and are willing to give their time to explain the investment philosophy to even a novice like myself; truly a world-class organization."

**Jayesh Mehta**  
Investor

### Value-add

"When I was raising our seed round, a very well-known founder friend of mine said, 'Do you know Bascom Ventures? The whole Alumni Ventures group is seriously one of the most value-add investors I've ever seen.' There is no better reference you can get than from another founder."

**Robert Crowe**  
CEO & Co-Founder, Matchwell

### The Network

"I've been impressed and most appreciative of the speed with which your team operates. I was just telling [my Co-Founder] Tom the other day that, based on the quality of the folks you've been able to connect us with already, this could have a material impact on our business!"

**Jonathan Lacoste**  
CEO, Jebbit

1.NOTE: For illustration purposes only. These investments are not intended to suggest any level of investment returns; not necessarily indicative of investments invested by any one fund or investor. These investments are not available to future fund investors except potentially in certain follow-on investment options. The sample co-investors listed are some that AV has historically co-invested with and is not a predictor of future co-investors for any given portfolio company. There is no guarantee of who will be the co-investors. Many returns in investments result in the loss of capital invested.

2.AV considers relevant connections with a portfolio company to include alumni of the school and friends of its community that are members of company management, board members, investors or advisors.

# Alumni Ventures Key Terms

- **Investment Amount:** \$25K - \$3M
- **How to Invest:** With cash, trusts, retirement funds, or vehicles created for non-U.S. citizens.
- **Management Fee:** AV charges an amount equivalent to 2% annual management fee for a fund's 10-year term. Loyalty rewards for commitments at qualifying threshold; [see here](#) for more information.
- **Profit Share:** Investors are typically paid proceeds from investments within 45 days following the quarter in which a portfolio company exits or provides a distribution. After the capital contributions, including the management fee, allocable to an individual portfolio company investment are returned to investors, AV shares profits realized on that investment 80/20 (80% to investors and 20% to AV). This calculation is done for each investment made by the Fund and is referred to as "Deal Carry."\*
- **One Capital Call:** AV will take its management fees when you fund your commitment and charges the fund no other expenses for items such as travel, fund formation, accounting or other admin-related costs, so you will not be subject to any additional capital calls throughout the life of the fund.
- **Term:** Liquidity is provided over ten years as investments exit. There are no more management fees if a company remains in a fund beyond 10 years.
- **Retirement Account Investing?** Yes, available.

NOTE: Different funds have different profit-sharing structures; see AV's full Fees & Profit Sharing disclosure [here](#).

# QSBS: A Potential Significant Tax Advantage

Certain investments with Alumni Ventures **may potentially be 100% tax-exempt** from federal and some state capital gains (up to \$10M) through QSBS.

- **Investments that may be eligible for QSBS will be noted on K-1**
- **Investing earlier = more potential companies qualify:** You can only get the benefit if your personal investment in the fund is fully signed and funded prior to the fund investing into a given company.
- **Expectation setting:** It's impossible to predict the volume and scale of what future exit and liquidity events will look like. We we expect there to be many qualifying exit events throughout our portfolios that have a widespread positive impact for our investors.

# Loyalty Rewards & Fee Reductions

We have built AV around serving the needs of our 10,000+ individual investors. Fee reductions are automatically reallocated towards additional investable capital for the relevant investments, and **eligible investors can earn both types of rewards simultaneously on eligible investments.**

## Committed Capital Rewards<sup>1</sup>

Fee reductions for those who cumulatively have \$500K+ committed capital with AV and our funds.

- Our most loyal and long-term investors earn fee reductions on all investments after attaining eligible investment totals.

Tier	Lifetime Committed Capital	Fee Reduction	Effective Fee Rate
Tier 1	\$0 - \$500K	0%	20%
Tier 2	\$500K - \$750K	1%	19.8%
Tier 3	\$750K - \$1M	2%	19.6%
Tier 4	\$1M - \$3M	3%	19.4%
Tier 5	\$3M - \$5M	4%	19.2%
Tier 6	\$5M - \$10M	5%	19.0%
Tier 7	\$10M+	7.5%	18.5%

## Timing Rewards

Fee reductions for those who invest earlier in the fundraise process.

- Investors joining the fund during the First or Second Close will be rewarded with a reduction of Management Fees as shown below.<sup>2</sup>

Closes	Fee Reduction	Effective Fee Rate
First Close	10%	18%
Second Close	5%	19%
Final Close	0%	20%

1. Each tier reward requires an investment above the threshold listed, e.g. \$500,001 for Tier 2. AV may offer different fee reductions for funds offered through or in conjunction with financial partners with respect to certain bespoke funds for certain institutional investors or other specialized or new investment funds or offerings. All tier rewards remain subject to change at the discretion of AV without notice to investors. For more information, see [here](#).

2. Eligible fund types include Eligible fund types include Alumni Funds, Focused Funds, Total Access Funds, and Community Funds. Ineligible fund types include Ineligible fund types include Syndication Funds and Opportunity Funds. Timing rewards begin for eligible funds that have initial closes in December 2023 and onward. All Fee Reductions remain subject to change at the discretion of AV without notice to investors.

# Venture Capital Has Outperformed the S&P

## U.S. VC Index Returns vs. S&P 500

Years Ended December 31, 2020

Sources: Cambridge Associates LLC and Standard & Poor's

- Venture capital **has outperformed public market equivalents** in the 5-, 15-, and 25-year periods ending December 31, 2020.<sup>2</sup>
- **We don't believe in market timing** or emotion-driven investing.
- **We do believe in steady, consistent investing in diverse assets**<sup>3</sup>— including venture — over time.

1. Private indexes are pooled horizon internal rate of return (IRR) calculations, net of fees, expenses, and carried interest. CA Modified Public Market Equivalent (mPME) replicated private investment performance under public market conditions. The public index's shares are purchased and sold according to the private fund cash flow schedule, with distributions calculated in the same proportion as the private fund, and mPME NAV is a function of mPME cash flows and public index returns.

# Venture Capital Is Largely Uncorrelated to Public Markets<sup>1</sup>

Uncorrelated assets can help mitigate a portfolio's overall risk when public markets are down or choppy

- Invesco's whitepaper "The Case for Venture Capital" shows that Venture Capital is **not correlated with the U.S. large caps in the public markets.**<sup>2</sup>
- A third-party analysis of thousands of venture deals done between 2015 and 2020 show that **performance is uncorrelated to the Nasdaq.**<sup>3</sup>
- From 1994 to 2017, the Cambridge Associates Private Equity Index registered **volatility half of that of the S&P and lower than the 10-year Treasury.**<sup>4</sup>

# We Are Living in a Different Era

## Most Individuals Are Missing Out on Substantial Value Creation

### Venture investors can tap tremendous value created by private companies

- Companies are staying private much longer in today's world.<sup>1</sup>
- Significant value is generated, but only to the benefit of private-market investors.<sup>2</sup>
- Public-market investors miss out from enormous value creation in private markets.

### More Value Is Being Created Before the Public Markets

# Sophisticated Investors Are Increasing Allocation to VC

## According to a 2021 Cambridge Associates whitepaper:<sup>1</sup>

- \$3 billion+ endowments had an **average allocation to private equity/venture capital of 28.2%**.
- Institutions with higher private investment allocations **experienced higher returns historically**.
- And those **returns tended to be less volatile**.
- Relative benefits are even more dramatic for VC alone.

**NOTE: Syndications are private investment opportunities in single-asset or multi-asset funds, which give you a chance to gain exposure to specific private companies in which AV Funds will also be investing. Opportunity availability is governed by AV management based on member preference, calendar, availability, allocation, and other factors.** Unlike other AV funds, Syndications are not diversified investments and do not offer the potential for risk mitigation sought by some diversified investment strategies.

# RISK FACTORS AND INVESTMENT CONSIDERATIONS

## **Investments in Reliance on Rule 506(c) of Regulation D; Ability to Participate in Investments Dependent upon Status as an Accredited Investor.**

The fund may acquire one or more securities in transactions involving a general solicitation. The offering entities of these securities may charge certain fees and expenses, including a portion of the amount invested from each investor and a portion of the proceeds when the investment has a liquidity event. If an issuer admits even one investor who is not accredited, it would be likely to have a material adverse effect on such issuer. Further, the SEC has adopted regulations under which crowdfunding may be used by small issuers to seek funding from non-accredited as well as accredited investors. Consistent with those regulations, the fund may locate and acquire securities through registered funding portals as well.

## **FEES; TIME REQUIRED TO MATURITY OF INVESTMENT; NATURE OF INVESTMENTS.**

The fund is subject to substantial fees which AV may keep irrespective of profitability. This fee maybe offset by profits on income generated from securities or sales of securities to avoid losses. Furthermore, any profits earned by the fund or for certain funds, its investments regardless of overall fund profits, will be subject to the promoted interest from which AV or its affiliates will benefit. There can be no assurances that AV will be able to secure investment capital in amounts sufficient to provide the fund with enough capital to enable it to meet its investment objective. While the fund intends to invest in the number of securities identified in the materials even if only a minimal amount is raised, the fund may not be able to meet this objective or may not be able to invest in some securities due to it not being able to meet minimum investment requirements. There can be no assurance that AV will either identify or consummate profitable investments for the fund. It is anticipated that a period of time will be required for AV to identify and effect acceptable investment opportunities sufficient to fully invest the capital received by the fund. The securities will be comprised primarily of “restricted securities” and the fund will not be able to readily liquidate such securities. Investments in start-ups and emerging companies are highly speculative. The portfolio companies may require several years of operations prior to achieving profitability and may never achieve profitability. The securities will be illiquid and may not have realizable value for several years, if ever. The securities acquired by the fund may be subordinated or junior in right of payment to senior or secured debt or other equity holders. In the event a portfolio company cannot generate adequate cash flow to meet debt service, all or part of the principal of such company’s debt may not be repaid and, in such event, the value of the securities could be reduced or eliminated through foreclosure on the portfolio company’s assets or the portfolio company’s reorganization or bankruptcy.

## **PORTFOLIO COMPANY RISKS.**

Although the fund’s investments may offer the opportunity for significant gains, such investments will involve a high degree of business and financial risk that can result in substantial losses. These risks include the risks associated with investment in companies in an early stage of development or with limited operating history, companies operating at a loss or with substantial variations in operating results from period to period, and companies that need substantial additional capital to support expansion or to achieve or maintain a competitive position. AV expects that most portfolio companies will require additional capital, the amount of which will depend upon the maturity and objectives of the particular portfolio company. It is anticipated that each round of funding will provide a portfolio company with enough capital to reach the next major valuation milestone. If the capital provided is insufficient, or for other reasons, the portfolio company may be unable to raise the additional capital or may have to do so at a price unfavorable to the prior investors including the fund. The availability of capital also is a function of capital market conditions that are beyond the control of the fund or any portfolio company. There can be no assurance that AV or the portfolio companies will be able to predict accurately the future capital requirements necessary for success or that any additional funds will be available from any source.

## **LIMITATIONS ON LIQUIDITY OF INVESTMENTS; EFFECT ON VALUE.**

It is anticipated that a substantial portion of the fund’s investments will consist of securities that are subject to restrictions on sale by the fund because they were acquired from the issuer or a third party in “private placement” transactions or because the fund is deemed to be an affiliate of the issuer under applicable law.

## **LEGAL DISCLOSURES**

Each of the various funds is a different series of Alumni Ventures Group Funds, or Alumni Ventures Sidecar Funds, LLC (AV Funds). Each of the funds involves a different investment portfolio and risk-return profile. The manager of each fund is Alumni Ventures Group Funds, LLC, a Delaware-based venture capital firm.

# RISK FACTORS AND INVESTMENT CONSIDERATIONS

The risks of purchasing an Interest include, but are not limited to, the following:

## **General; Operating History of the Fund; Risks Inherent in Investment Strategy.**

The purchase of units in the fund is highly speculative and involves significant risks, and the units should not be purchased by any person who cannot afford the loss of their entire investment. The investment objective of the fund is also highly speculative. Holders of units may be unable to realize a substantial return on their investment in the units, or any return whatsoever, and may lose their entire investment. For this reason, each prospective purchaser of units should read all offering and legal materials carefully and consult with their attorney and business and/or investment advisor. The fund does not have any significant business history or operating experience that investors can analyze to aid them in making an informed judgment as to the merits of an investment in the fund. There can be no assurance that the fund will be able to generate revenues, gains or income, or, even if it generates revenues, gains or income, that its investments will be profitable. Any investment in the fund should be considered a high-risk investment because investors will be placing their funds at risk in an unseasoned start-up investment vehicle with the attendant unforeseen costs, expenses, and problems to which a new business is often subject. The fund has been newly organized to acquire securities. Those securities will be highly speculative. The composition and terms of the securities, as well as the portfolio companies or other funds issuing such securities, has not been determined and will be influenced by various factors, including the availability and pricing of the securities, the expected growth potential of the portfolio companies, and the availability of fund capital allocated to purchase such securities. The fund's strategy is to rely on information provided by potential portfolio companies and on the AV's independent research and judgment. No assurance can be given that information provided by third parties will be accurate or that the fund's investment strategy will be successfully implemented.

Generally, the fund will not be able to sell these securities publicly without the expense and time required to register the securities under the Securities Act, or may only be able to sell (or may choose to sell) the securities under Rule 144 or other rules under the Securities Act, which permit only limited sales under specified conditions.

## **INVESTMENT VALUATION DETERMINED BY AV.**

AV will be responsible for the valuation of the fund's investments in its portfolio companies that are not listed or otherwise traded in an active market. There is a wide range of values that are reasonable for an investment at a given time and, ultimately, the determination of fair value involves subjective judgment not capable of substantiation by auditing standards. In some instances, it may not be possible to substantiate by auditing standards the value of the fund's investment in a portfolio company. In connection with any future in-kind distributions that the fund may make, the value of the securities received by investors as determined by AV may not be the actual value that the investors would be able to obtain even if they sought to sell such securities immediately after an in-kind distribution. In addition, the value of an in-kind distribution may decrease or increase significantly subsequent to the distributees' receipt thereof, despite the accuracy of AV's evaluation.

## **No Market for Units.**

Funds will only be available for distribution when securities are sold or when distributions of funds are made by portfolio companies with respect to any securities. The time that distributions are actually made will be solely dependent upon the timing of the realization of proceeds from the securities and the determination of AV to distribute any such funds. No market for the units exists, and it is not anticipated that one will develop. The units are not redeemable or transferable except as outlined in the Operating Agreement. Purchasers of the units will be required to bear the economic risk of their investment for an indefinite period of time. The units are not registered under the Securities Act or applicable state securities laws and may not be re-sold unless they are subsequently registered or an exemption from registration is available. Investors have no right to require, and the fund has no intention of effecting such registration. Consequently, an investor may not be able to liquidate an investment in the units, and a bank may be unwilling to accept the units as collateral for a loan. The units will not be readily marketable, and purchasers thereof may not be able to liquidate their investments in the event of an emergency.

## **Conflicts of Interest; Co-Investment; Cross-Class Liability.**

AV, the members of the investment committees of the AV funds with which the fund co-invests, and their respective affiliates may face various conflicts of interest in connection with their respective relationships and transactions with the fund. AV's other clients, and/or its personnel, may invest on a side-by-side basis with the fund, the fund may invest in securities in which another client has invested, or another client may invest in an opportunity that may also be appropriate for the fund. AV and its affiliates currently have other investments that may compete directly with the fund for investment opportunities and AV intend to organize and manage additional entities similar to the fund. In addition, the fund and other clients may seek to invest in portfolio companies based on rights to participate granted in connection with the fund's or other clients' prior investment in the portfolio company. Over time AV will allocate investment opportunities in a fair and equitable manner acting in the best interest of its clients as determined by AV's sole discretion. AV will consider whether each selected investment is suitable for each client based on criteria germane to that client, which may include legal, tax, regulatory, and other criteria, such as the client's investment objectives, strategy, and diversification requirements and available cash to invest. AV and its affiliates will not be prohibited from making additional investments or participating in business ventures outside of and independent of the fund.

## **Compensation to Manager and Its Affiliates; Lack of Separate Representation.**

It is anticipated that counsel to AV will continue to represent AV and the fund after the consummation of the offering described herein. Such counsel has not acted independently on behalf of the investors, and potential investors should consult with and rely on their own legal counsel with respect to analyzing the terms of this investment and any future matters related to the fund or the ownership of units in the fund.
