AV Portfolio Company Sampler

Growth Investments

An Alumni Ventures Growth Stage Portfolio Sampler

AV's Growth Fund offers our existing investors a chance to participate in companies in which AV Funds have previously invested, that are demonstrating success, and where the company's development is past the seed stage.

We assembled the following list of recent Alumni Ventures investments to demonstrate the types of accelerating companies we will aim to source for our Growth Fund. To learn if the Growth Fund is a good fit for your portfolio, or to explore more about the fund's composition and managers, [click here](#).

New England

Focus

Wasabi's hot cloud storage competes directly with Amazon's S3 cloud storage, offering six times the speed at one-fifth the cost. Their users can store vast amounts of data without high costs, providing an S3-compliant interface for use with storage applications and gateways.

Important Disclosure Information: The manager of the AV Funds is Alumni Ventures (AV), a venture capital firm. AV and the funds are not affiliated with or endorsed by any college or university. These materials are provided for informational purposes only. Offers of securities are made only to accredited investors pursuant to each fund's offering documents, which describe among other things the risks and fees associated with the Fund that should be considered before investing. The funds are long-term investments that involve a substantial risk of loss, including the loss of all capital invested. Past performance is not indicative of future results. Opportunities to invest in any security (of a Fund, of AV or in a syndication offering) is not a guarantee that you will be able to invest and are subject to all terms of the specific offering. Registered Representatives licensed with Herald Investment Marketing LLC, Member FINRA/SIPC, which is not affiliated with Alumni Ventures Group or its affiliates.

AV offers smart, simple venture investing to accredited investors. Specifically, AV provides a path for individuals to own an actively managed diversified venture portfolio with a single investment co-investing alongside experienced VC firms. Traditionally, with limited investment capital and contacts, individual investors have had limited access to desirable deals alongside experienced VC firms, and even if they could access one or more such deals, it would take an inordinate amount of time, money and negotiation to build a diversified portfolio. With AV Funds, investors can choose from a number of funds to make a single investment to gain exposure to a diversified portfolio of investments selected by an experienced manager. AV Funds' simple fee mechanism permits investors to avoid constant capital calls throughout the life of the fund as found in other private investment vehicles.
